Our Process

SuperStaff employs an adaptable KPO framework optimized to address continuous industry disruptions.

1. Identify needs

To assess the expertise, skills, and other competencies that you require, we begin by studying the nature of your business. Afterward, we provide you with a project baseline.

2. Establish goals

After a thorough analysis of your organization's needs, we define S.M.A.R.T. objectives and set key performance indicators. We also ensure expectation alignment across all involved parties.

3. Create scope of work

Our recruitment specialist will coordinate with you or your hiring manager to make sure that we clearly understand the responsibilities of the positions you are looking to fill and the skill sets that you require.

4. Select from talent pool

Then, we provide you with a shortlist of candidates who underwent a strict selection process. We employ an innovative recruitment approach that enables us to tap candidates qualified to perform knowledge-intensive tasks.

5. Train and integrate

After building your team of experts, the next step is to equip them for success. We conduct intensive training and seamless employee integration into your company's culture.

6. Manage office operations

Relying on solid business process management experience, we ensure that your daily KPO operations are as frictionless as possible. Trust us to maintain an open line of communication to facilitate continuous improvement.
